

There are only winners in this game!

It's all about getting to know one another and discovering some things we may have in common.

The first person reveals a conversation prompt from the cards and briefly shares a story connected to a place, inspired by the prompt, without interruption. Work together to find the story's location on one of the maps placing a numbered removable sticker that correspond with the number of the story. Speak your truth! Listen with an open mind and open heart. The next person briefly summarizes the first person's story. Make sure everyone in the group has a chance to share and remember to honour one another's stories. They're your truths!
